

How to Grant Investors Access to the Investor Portal

The Financial Portal enables advisors to manage and grant access to the Investor Portal. Advisors can invite **investors** to view their accounts or **other advisors** to collaborate, improving transparency, collaboration, and efficiency. To provide access, open the Financial Portal and navigate to the **Clients** grid.

The screenshot displays the Financial Portal interface. At the top, a navigation bar includes links for Home, Accounts, Account Groups, **Clients**, Households, Financial Professionals, Business Units, Branches, and Download Center. Below this, the 'Clients' section features a search bar, a 'Create Client' button, and an 'Export' button. A table lists client profiles with columns for Full Name, Tax ID, Age, Gross Cash Equivalents, AUM, Open Accounts, and Email. The second row, for 'Berrita Kumpalski', is highlighted with a red arrow. Below the table, a summary card shows a total AUM of \$339,958,620. To the right, a donut chart displays asset allocation: Common Stock (70%) and Mutual Fund (30%). Further right, client details for Tyree Bradford are shown, including Tax ID, Source (LPA, Subweb), Email, Address, and Client Type (Individual). A 'No Notes yet' section with a 'Create Note' button is also present. At the bottom left, the 'Client Portal Info' widget shows a message: 'This client has not been invited to the Client Portal', with a red arrow pointing to an 'Invite' button. To the right of this widget is an 'AUM Balance Over Time' line chart.

Select the profile of the investor or advisor you want to invite, and locate the **Client Portal Info** widget. Clicking the **Invite** button opens a window where you can choose an existing email address associated with the recipient or enter a new one. Once the correct email is selected, click **Send**. The widget will then update to display the status of the invitation.

The recipient will receive an email containing a **Login** button. By clicking this button, they are directed to the Investor Portal login page, where they must log in using the same email address that was used for the invitation. Once logged in, the recipient, whether an investor or another advisor, can securely access the Investor Portal and begin using the available features.

Once the login is completed, the **Investor Portal** will open, and the client will be able to access the available features and information.
